

UltraTape

Adhesive Tapes and Labels for Critical Environments

These unique tapes are designed for hanging heavy plastic sheeting to create temporary walls, taping cart wheels and ductwork, floor marking and color coding. Use the striped hazard warning tapes to designate the OSHA critical areas of your cleanroom.

- **Super-Tack® construction tape where you need a strong adhesive bond that leaves no residue upon removal.**
- **Protocol® tapes for immediate recognition that certified cleanroom compatible tape is in use.**
- **RoHS certified vinyl tapes with low unwind strength.**
- **Available in UltraClean where each roll is processed through our clean manufacturing process, individually inspected and individually wrapped in cleanroom polyethylene bags; and then double bagged in packs or available in our Standard version for use in less critical environments with single bag packaging.**

Model	1153	1154	1160	1163
Backing	Polyethylene	Polyethylene	Vinyl	Vinyl
Adhesive	Synthetic Rubber	Rubber	Rubber based	Natural Rubber
Total Thickness	7.0+/- 1.0 mil	7.0+/-0.70 mil	6.0+/- 0.7 mil	5.0+/- 0.7 mil
Adhesion to Stainless Steel	40 oz/inch minimum	20 oz/inch minimum	20 oz/inch minimum	18 oz/inch minimum
Operating Temperature	-20 to +200 F	-20 to +200 F	-20 to +190 F	-20 to +190 F
Elongation at Break	80%	80%	150%	150%
Tensile Strength	15 lbs/inch	18 lbs/inch	18 lbs/inch	18 lbs/inch
Length	36 yards	36 yards	36 yards	36 yards

Construction

UltraTape 1153

Super-Tack[®] tape ideal for any application where you need a strong bond. No residues, tears by hand and you can write on it with a pen. Available in Protocol[®] uniquely striped color pattern which allows immediate recognition of the product from a distance. There is simply no chance for confusing it with another product.

Colors: Black (BK), Blue (BL), Clear (CL), Green (GR), Orange (OR), Red (RE), White (WH), Yellow (YE), Protocol[®] (white with blue stripe, white with teal stripe.)

UltraTape 1154

A good replacement for vinyl tape in general use and cleanroom construction. It bonds quickly to all surfaces. The adhesive strength is virtually identical to vinyl tapes. The polyethylene backing can be written on with a cleanroom pen, and you can tear it by hand. The 1154 is also recommended for in-process applications due to its low outgassing and metal properties.

Colors: Blue (BL), Clear (CL), Red (RE), White (WH), Yellow (YE).

UltraTape 1160

Medium adhesion, easy release vinyl tape has a 3" plastic core and is useful for maintenance and construction use. Cleaned and double bagged for cleanroom use, individually bagged for use in non-critical environments.

Colors: Black (BK), Blue (BL), Clear (CL), Green (GR), Orange (OR), Red (RE) White (WH), Yellow (YE).

UltraTape 1163

For operator and in-process use because it has low unwind strength and medium adhesion. Contractors like the stretch for sealing and wrapping.

Colors: White (WH), Clear (CL), Blue (BL), Green (GR), Orange (OR), OSHA Blue (OB), Red (RE), Yellow (YE).

UltraTape 1151 KWIKrip[®]

This high-performance product replaces vinyl tape for general use and cleanroom construction, where class 1000 (ISO Class 6) product is not necessary. This product has identical features to our 1153 Super-Tack[®] tape; it bonds quickly to all surfaces, yet has a **unique serrated edge** allowing for easy tearing by hand, and you can write on it with a pen.

Colors: White (WH),
