JEANNE BEACHAM AWARDED THE EXCELLENCE IN MENTORSHIP OF EARLY SCIENTISTS AWARD

HAYWARD, CA AUGUST 26, 2017 Delphon, a company that specializes in polymer and adhesive solutions for the electronics and medical industries, announced today that CEO Jeanne Beacham has been honored with the *Excellence in Mentorship of Early Career Scientists Award* by the University of Oregon's Master's Industrial Internship Program.

University of Oregon's Master's Industrial Internship Program trains students in the real-world knowledge and skills necessary to be successful in industry. It is designed to help students become more effective problem solvers and communicate better in the industrial environment. Jeanne Beacham has been a long-time supporter and has provided mentorship and training to individuals in the program.
